It may be a little tricky to get past the altoid tin's lip, but if you go in at an angle it will snap right in.

It stores 12 microsd cards, 3 full sized, and a 7cm x 2cm usb.

Note that my photo has a logo, but the stl doesn't actually include that.

I've included the f3d and step files in case you want to mess around with it

Print Settings

- Printer brand: Wanhao
